Blue slow flash	Configuring network

Charging Device

Charging time	4-6 hours
---------------	-----------

Set Up Your Device

1. Scan the code below to get the app.
2. Tap "Set Up a Device" to add your camera.

To access distribution network setup methods and get more assistance, please scan the QR code below.

Installation instructions

The wall must be able to support at least three times the weight of the camera. The product is compatible with both ceiling and wall mounting.

Installation steps:

1. Drill holes into the wall.
2. Insert expansion screws (not required for wooden walls).
3. Secure the bracket with screws.

Wall Mounting

Ceiling Mounting

FAQ

What if the device is offline?

- 1: Check if the Wi-Fi signal is normal (currently the camera only supports 2.4G Wi-Fi)
- 2: Detect whether the device is offline because of no power, need to charge the device, it is recommended to use DC5V/2A adapter
- 3: Short press SYNC once after the device is fully charged and the blue light is on; if the blue light of the device is not on, long press SYNC for more than 6 seconds to reset and rewire the network;

What if I don't receive alarm messages?

If you notice that the camera detects events but your phone does not receive notifications, please check whether message push is enabled in your app settings and if your phone has granted notification permissions for the app.

What if the charge doesn't respond?

1: Check if the power adapter and charging TYPE-C cable are bad, recommend using DC5V/2A adapter

2: The blue light is always on after charging, and it takes 4-8 hours to fully charge;

3: the blue light is not always on after charging up.

Equipment cannot be added

1: It is recommended to charge the new device for 4-8 hours, and it is recommended to use DC5V/2A adapter.

2: Check whether the Wi-Fi signal is normal, currently the camera only supports 2.4G Wi-Fi, does not support dual-band Wi-Fi (2.4G and 5G).

3: Make sure the Wi-Fi password is entered correctly.

If there is any problem with all of the above steps, contact customer service for troubleshooting.

Notice

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device under Part 15 of the FCC Rules. These limits are designed to protect reasonably against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used by the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. Suppose this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. In that case, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment to an outlet on a circuit different from the receivers.
- (4) Consult the dealer or an experienced radio/TV technician for help.

Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

This product complies with the radio interference requirements of the European Community.

Declaration of Conformity

This product complies with the essential requirements and other relevant provisions of Directive 2014/53/EU. For the declaration of conformity, visit <https://www.nooriolife.com/>

Battery Safety (Only for the product has batteries)

Do not expose the device to fire, explosion or other hazard. Do not use the device in the environment at too high or too low temperature, never expose the device under strong sunshine or too wet environment. It is recommended to charge the device in an environment with a normal room temperature and good ventilation.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps pour garantir la conformité aux exigences d'exposition aux RF.

IC Statement

This device complies with Industry Canada licence-exempt RSS standard (s). Operation is subject to the following two conditions.

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme à la ou aux normes RSS exemptes de licence d'Industrie Canada. Le fonctionnement est soumis aux deux conditions suivantes.

- (1) cet appareil ne doit pas causer d'interférences, et
- (2) cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

IC RF Statement:

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.
